"CEDAR LANE"

A writer who neglected to sign his name, writes us under date of June 14, asking our position regarding "Cedar Lane" and the wind cedar lane between Old Appomattox and Vesa.

So far as we know, every citizen of Appomattox County wants this dangerous road straightened. It is the worst sort of death trap. We were disappointed that it was found necessary to reject a lone bid of \$28,000 for this project. We commend the State Highway Department for not paying a price it felt to be out of line. But in the current inflationary period it is difficult to determine price lines. It is to be hoped that the project will not be abandoned. A great volume of traffic is using this road, to and from Holiday Lake. And the restoration of the McLean House will add more. Bus loads of children traverse it going and coming from the State 4-H Camp.

We suggest that local citizens keep on asking for action.

HOPE FOR THE BEST

It is freely conceded that the man nominated by the Republican next week at Philadelphia, may be the next President of the United States. At least he will be more likely to win than the GOP nominee since 1928. So, let us hope for the best possible choice. Hope that the day of a sack grove hand-picking dead compromise candidates is gone, and that from this convention will come an able national leader. On another page of this issue we present some of the leading prospects. Which one will it be?

WITH OTHER EDITORS

FOR A U. N. POLICE FORCE
(New York Times)

The proposal made at Harvard by Trygve Lie, Secretary General of the United Nations, that a small international police force be authorized by the U. N., for quick assignment to trouble spots in the world to enforce U. N. decisions, may find fresh impetus to a project which has long been debated inconclusively, in the Military Staff Committee of the Security Council.

Had such a force been in existence two months ago many of the religious shrines of Jerusalem might not today lie in ruins. The Municipal Commissioner in Jerusalem could have called on the United Nations for the aid of such a force to protect the Holy City, as he is empowered to do. The Arab Legion hardly would have attacked under those circumstances, with the flag of the United Nations flying at the gates. The Hagahm would not have found it necessary to defend the 100,000 Jews living there. There would have been no necessity for debating in the Security Council which nations were to send military representatives to observe the truce now in effect.

As Mr. Lie said in his address to the Harvard alumni, there has not been a single case before the United Nations yet where a large force would have been needed had a small one been in existence to move quickly at the proper time. Backed by the power of all the United Nations, such a force would command a respect that armed forces of any one member would not.

Three years of discussion in committees have failed to bring an agreement on allotment of national forces to a U. N. striking force. As long as the present gulf remains between East and West such agreement seems remote. If a small international legion is formed the larger undertaking might be found not even to be necessary. We hope that the General Assembly meeting in Paris in September will put the consideration of such a force on the agenda.

MORE DAIRY COWS

(Fort Worth Star - Telegram)

According to the Milk Industry Foundation, the present is the most advantageous time in United States history for farmers to increase their dairy herds. The assertion is justified by the fact that the overall supply of milk already is in adequate and the nation's population is increasing rapidly.

There has been a slight increase in the number of milk cows in the country in the last few years, which, with a nominal increase in production per cow, has resulted in a substantial increase in total milk output. But this increase has not kept pace with the growth in population, nor with the domestic and foreign demand for milk and milk products.

In addition to the population increase, the demand for milk has been accelerated by the increase in the general level of wages in recent years. Wages have gone up considerably more than the price of milk, with the result that a day's wages for the average industrial worker today will buy considerably more milk than it would 10 or 20 years ago. In 1927, for example, a day's wages would buy 31 quarts of milk, whereas in 1937 it would buy 33 quarts and in 1947 it would buy 40 quarts.

W. C. milk almost universally regarded as one of the best, as well as one of the most economical, foods, it is reasonable to expect the demand for it to continue high as long as wages remain high.

SAFETY FIRST

(Bill Vaughan in the Kansas City Star)

The seat beside the driver is the most dangerous spot in a motor car, if safety statistics are taken into account. The reason so many young women are seen on the highway seem intent on sitting under the wheel along with him.

FIDC'S 14 YEAR RECORD

(Petersburg Progress Index)

A statement from the chairman of the Federal Deposit Insurance Corporation says that agency has paid back to the government \$246 million of the \$289 million made available to establish it 14 years ago and expects to pay back the remaining \$43 million before the end of this year. After that, the FIDC, while continuing to be an agency of the government, would be financed entirely by the insured banks. Also impressive is a summary of what the FIDC has done during its life. In contrast with the impression of some it is a paper organization which has had little work to do. During the 14 years 407 insured banks have been closed because of their difficulties, all but three of them requiring assistance from the FIDC. Almost 88 per cent of the deposits were promptly made available without loss, to depositors, although some deposits were above the \$5,000 insurance maximum. Thus the agency has been able to serve its function of protecting depositors and at the same time to make substantial payment on the government subsidy which started it off.

As it turns out the Federal Deposit Insurance Corporation has been a sound and profitable experiment, in terms of both protection of depositors and stability of the national economy. The consideration of the agency has been a soundness when it was created seem to have vanished in the face of its record.

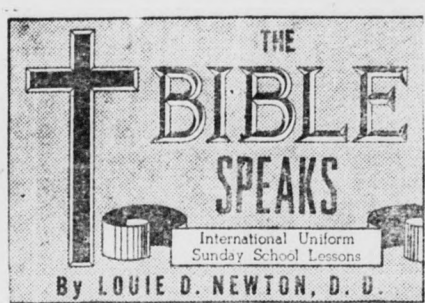

DeGaulle opposes a new State in Western Germany.

Draft machinery nearly ready if legislation enacted.

Truman to visit Kansas City on present trip.

Truce fails to halt all fighting in Palestine.

State Senator Battle announces that he will be a candidate next year for Governor of Virginia. Several others expected to run.

The Hope For The Messiah
Lesson for June 29, 1948

THE hope for the Messiah first revealed to Adam in Genesis 3:15, and repeated to Abraham, Moses, David and Isaiah, was now proclaimed through Ezekiel, Daniel and Zechariah.

Here we have the hope of preservation, the hope of peace, the hope of security, the hope of deliverance, the hope of dominion, the hope of service, the hope of sovereignty and the hope of redemption and the hope of purification.

A PROMISE FROM GOD
THIS is no fanciful scheme of man. It is God's clear promise. "Therefore will I save my flock, and I will set up one Shepherd over them, and he shall feed them..."

LOOKING FOR A BETTER WAY
LONG had the people looked for a better way. Now God would provide that better way. It would be the way of the Good Shepherd. He knows the way. He holds the key.

DANIEL'S DREAM OF THE DELIVERER
THE passage in Daniel is resonant with hope. "I saw in the night visions, and behold, one like the Son of man came with the clouds of heaven..."

SAVIOUR AND KING FOREVER
ALL THE promises are embodied in the person of Jesus Christ, the Saviour, Jesus the King, Jesus the Sanctifier. Here was hope for the Jews, and for all mankind. It was proclaimed through Jewish prophets, and Jesus was born of a Jewish mother. Favored, indeed, was that race. And although there be many who have rejected the Messiah, he fulfills the deepest meaning of every man's hope.

With Charles Wesley we sing:
Hail, thou long-expected Jesus,
Born to us the people's King,
From our sins and fears release us,
Let us find our rest in Thee.

Christian Generosity
On occasions a collection is taken in a tavern designed to relieve some man's distress. For any such charity let us be thankful. But let us also remember that that sort of thing is done only occasionally in a liquor joint and it is the regular habit in a church—Roy L. Smith.

No Grim Struggle
To become a musician you don't grit your teeth for a grim struggle. The basic fact for successful living is that life is easy. Approach it, then, in faith. "Fear not, little flock, it is your Father's good pleasure to give you the kingdom!"—Virgil Kraft.

California Sees Boom As Car Assembly Point

LOS ANGELES. — Los Angeles county clinched its position as the country's second largest automobile assembly center with the second opening of a car plant in less than three months.

The addition, close on the heels of General Motors' elaborate new Chevrolet plant in suburban Van Nuys, is the Ford Motor company's first Lincoln-Mercury assembly plant to be established outside of Detroit.

The factory, embodying more than five miles of conveyor lines, will turn out in full operation, more than 1,000 automobiles a week. With General Motors, Chrysler, Studebaker and Willys plants already established, and Nash and Kaiser-Frazer plants scheduled to go into operation, the Los Angeles area soon will be producing cars at the rate of 2,000 a day for the country's largest automobile market.

California in 1946 had a total registration of 2,801,000 passenger cars leading New York by nearly a million.

The prospective total output of the new plants is four times the pre-war peak of 154,000.

Both Ford and General Motors have started additional production programs worth a million dollars in the state which would increase this ratio of local supply manifold.

Racing Pigeon Comes Home
To Rapt After Nine Years

CLEVELAND, OHIO. — After nine years, one of Frank S. Wellman's pigeons has returned from the 100 mile race it started back in 1939.

Appearing well fed, the bird landed on the loft and promptly slipped inside to take its accustomed perch.

Woman said the pigeon started the race 100 miles from Cleveland, but he was unable to recall the exact point.

"Not many birds come back after nine years," he commented, but they do have remarkable memories. This bird either became lost or has been penned up.

Pigeons live to be about 15 years old.

Expert Claims Americans Need Lessons in Bathing.

NEW YORK. — The country may lead the world in the number of bathrooms, but many Americans don't know how to take a bath properly, according to Harold J. Reilly, for 30 years head of a health service here.

"A lot of people actually do damage to themselves by lack of proper bathing knowledge," Reilly said. "They seem to think that sitting in a hot tub, using a lot of perfume soap, shivering under a cold shower and drying by the brisk rubbing of a rough towel are essential parts of being clean and healthy. The task was to get these things can hurt their health."

Sitting in a hot tub is all right as far as it goes, but that doesn't mean you're getting clean, he explained. The dirt that has come off is still with you when you get out in dirty water. Tub bathers should finish off with a cooling—not cold—shower and pat—not rub—themselves dry with a towel.

"Cold showers are never advisable except as a treatment by a physiotherapist for poor circulation," Reilly added.

Alabama Chief Says Prisoners Manufacture Criminals Daily

MONTGOMERY, ALA. — "We are rehabilitating criminals every day. Rehabilitation seems to have been forgotten in our penal institutions," Alabama Chief of Prisoners Frank A. Boswell said.

He told his story in a report to Gov. James E. Folsom on completion of his first year as head of the convict department and its 4,500 inmates. Then he proposed some drastic remedies.

First, "the str-hardened convicts who have passed the stage of rehabilitation should be isolated in a separate institution with no hope of parole until they learn to behave."

The "tough guys"—homosexuals, habitual dope addicts and "mental inmates" not acceptable in insane hospitals—should be locked in cells to themselves.

Boswell doesn't expect miracles in his rehabilitation program. In fact, he says it'll take at least two years to get started. "Money is our main drawback. I'll take lots of it, and we haven't got it now."

IF YOU HAD A FIRE TONIGHT

Do you have any Insurance?
Do you have enough Insurance?
The cost is small.

Better safe than sorry.

Happy the Bride
whose friends heed this hint

After the honeymoon comes the house-keeping—so if you're seeing those square white envelopes in your mail—it's time to see your electrical appliance dealer for gifts that keep on giving! Among the many things now available in a variety of makes and models:

- Certified Lamps
- Electric Coffee Makers
- Electric Toasters
- Electric Waffle Irons
- Electric Mixers
- Electric Bed Covering
- Electric Juicers
- Electric Irons
- Electric Clocks
- Electric Cans
- Vacuum Cleaners

Any of these smart, modern electrical gifts... beautiful to see, wonderful to use... will help to make their house a happy home!
